Lot	Description	Illustration	Est. Value
9	Polte, Patronenfabrik Magdeburg display board. "Tuf – Hülsen m. verringertem Laderaum." Five different 13.2 x 92SR aluminum- lined cases for reduced powder load. Beautiful condition. 18.4 x 29.7cm. Ex-Woodin collection.		\$500-850
10	Frankford Arsenal 1mm (yes, one millimeter) Microballistic cartridge. Steel case, snapped brass primer, solid platinum bullet loaded slightly longer than specimen in figure. No headstamp. HWS Vol. III, page 383, Fig. 524. Extremely rare. Ex-Woodin collection.		\$750-1250
11	Full Sealed box of Winchester 22 Automatic cartridges loaded with Smokeless Powder. For Winchester Model 1903.		\$75-100
12	Frankford Arsenal rimless-grooveless High Pressure Test (barrel proof) Cal. .30 cartridge. Headstamp "F A TEST." Brass case, copper primer. HWS Vol. I Revised, page 173, Fig. 268. Ex- Woodin collection.		\$175-225
13	Frankford Arsenal experimental .30-06 aluminum case, headstamp "F A 37." Blind primer pocket. HWS Vol I Revised page 133, left column. No figure. Ex-Woodin collection.		\$275-375

Lot	Description	Illustration	Est. Value
14	50 2 ½" coiled case. NOTE from John Belton- 'MFG for use in 1868/69 trails in Specially Barreled Enfield Snider. <i>This has not been verified.</i>		\$75-125
15	Book, "Societe Francaise Des Munitions." A hardbound catalog dated 1 May 1903, Paris, of all of the ammunition-related products produced. Full color illustrations of the individual cartridges, boxes, tins, shotshells, etc. are done with metallic ink that jumps off the page. The quality of the illustrations is simply astounding, even the artillery rounds and fuzes. Includes pinfires. Ex-Woodin collection.		\$350-500
16	A pair of early oil-well, drill-casing-perforating cartridges by Peters. The first has a plain steel case, copper obturating ring at the mouth, and a sharply pointed plain steel projectile. The headstamp is "PATD. DEC 8, 1931 PAT. PEND PETERS." Presumed to be a dummy because the flat nickel primer cup has a small hole in it. The other specimen is bright nickel plated. It has no obturating ring at the mouth, and its steel projectile is copper plated. The headstamps are about the same. The nickel-plated round has a struck nickel primer. Ex- Woodin collection.		\$250-350

Lot	Description	Illustration	Est. Value
17	Dominion Arsenal Quebec 'Hedgehog' projector case dated 1964. Headstamp: 'DAQ LOT 4 3-1964 238379T 1 PC MK 2 MOD 0'		\$50-75
18	Model 1911/A1 .45 ACP squeezebore barrel only. If you have a .45 ACP squeezebore cartridge, you may have wondered what .45 ACP pistol they were fired in. This is an extendedlength (6.2 inches; 1.1 inches longer than standard) M1911/A1 barrel in new condition. It has no markings except the "P" and "HS" (High Standard) on the link section. The first part of the bore is rifled, then the smooth bore section reduces its diameter to .38 (0.3540 inch). Extremely rare M1911A1 accessory. Ex-Woodin collection.		\$375-450
19	Set of three .30 Light Rifle cartridges with graphited aluminum cases. T5 47mm case, FAT1E1 49mm case, and FAT1E3 final 51mm case ("R A 50.") HWS Vol. III, pages 151-152. Ex-Woodin collection.		\$65-85
20	57 Howdah Pistol cartridge using a French 24 Gauge shotshell with round lead bullet		\$50-100

Lot	Description	Illustration	Est. Value
21	A small green Christmas tree made of twenty-nine 5.56mm aluminum case, folded cartridges mounted by their primer pockets around a central aluminum tree trunk. This sat on a file cabinet just inside the lab door for many years. In a red plastic pot with ballast. Nine inches high. Top of red pot is about 4.5 inches wide. Ex-Woodin collection.		\$250-350
22	Frankford Arsenal Gerlich-type Cal. .656-.50 experimental anti-tank cartridge. Primed Cal. .50 T1 case with expanded neck but no propellant. Fiber band at rear of bullet cracked and now held in place with tape. Bullet removes easily. Headstamp" CAL 50 FA 38." HWS Vol. I Revised, page 263, Fig. 382. Ex-Woodin collection.		\$500-750
23	577 Pistol Blank with Boxer case.		\$50-100

Lot	Description	Illustration	Est. Value
24	Frankford Arsenal bench priming tool for .30-40 Krag. Marked: "FRANKFORD ARSENAL 1907 G.H.S." Black finished. Works perfectly. Ex-Woodin collection.		\$225-265
25	.303/.25 experimental expanding and sealing cartridge with strange folded reduced diameter neck. No further information. Faint "3" headstamp.? Ex-Woodin collection.		\$50-60
26	577-450 Early round by either National Arms and Ammunition Co or Westley Richards. This has the stepped base case.		\$100-125
27	A pair of two .30-06 unprimed empties (UPE), with "G.C.CO. 7 16" and "G.C.CO. 8 16" headstamps. HWS Vol. I Revised page 111, Fig. 145. Ex-Woodin collection.		\$75-95

Lot	Description	Illustration	Est. Value
28	A beautiful light tan hinged-box display of “Plastik-Patronen” cartridges by Gustav Genschow & Co., Aktiengesellschaft, Munitionsfabrik Karlsruhe-Durlach. Six different whole and sectioned red plastic blank cartridges. Ex-Woodin collection.		\$250-300
29	450 3 ¼” coiled paper and brass case.		\$50-75
30	Aerojet factory display on wood base, “Multiple Flechette Cartridge with puller sabot and aluminum case, etc.” 25□ section of cartridge. Ex-Woodin collection.		\$165-210
31	Cal. .30 Model 1903 Guard cartridge. “F A 8 04.” HWS Vol. I Revised, page 104, Fig. 138. Ex-Woodin collection.		\$55-65
32	57 Pistol Cartridge with round ball for revolver or Howdah pistols		\$100-125

Lot	Description	Illustration	Est. Value
33	ICI salesman sample kit in tan English pigskin. Snap closure with four folds which open to reveal seven cartridges from 9mmMK 2Z to .50 Browning Tracer. Ex-Woodin collection.		\$250-350
34	Cal. .221/.17 plastic/steel cartridge. Steel base, plastic body. Clear sabot, plain headstamp. HWS Vol. III, page 399, Fig. 569. Ex-Woodin collection.		\$55-75
35	57 Snider Board Dummy by either UMC or Winchester.		\$50-75
36	16mm Vega Machine Cannon dummy. Steel projectile, marked "16 M/M VMC-MX-1." Nose fuze screws off easily to reveal empty projectile. Headstamp (not significant) "CAL 50 FA 39." Lot includes an extra projectile. HWS Vol. II, page 244, Fig. 228. Ex-Woodin collection.		\$250-325
37	Frankford Arsenal .45 blank cartridge for British Low Altitude (L.A.) cable cutter attached to barrage balloons. "F A 42," brass case, heavily lacquered, copper primer. HWS Vol. II, page 21, Fig. 14B. Ex-Woodin collection.		\$55-75
38	450 3 1/4" with Eley Boxer Patent embossed in case wall.		\$100-125

Lot	Description	Illustration	Est. Value
39	A pair of 12-Gauge Taser-type shotshell cartridges with electronics. Clear plastic cases showing all internal parts, needle projectiles, circuit boards, etc. Headstamps "TASER ®" and plain. Ex-Woodin collection.		\$225-325
40	.44 S&W Russian Hollifield Dotter. "U.M.C. .44 S&W. R" Ex-Woodin collection.		\$235-275
41	Dummy XM649 flechette cartridge, "I V I 6 9" with struck primer and unusual pointed long steel projectile and aluminum sabot at case mouth. Aberdeen Proving Ground. Ex-Woodin collection.		\$115-165
42	Cal. .50-.30 high velocity dummy cartridge, "F A 42." One tiny hole on shoulder. Case has not been fired. No primer, GM bullet. HWS Vol. II, page 236-237, Fig. 219. Ex-Woodin collection.		\$400-600
43	577 Snider Mk II snider with brass base The MK II is scarce due to its limited production before being replaced by the MKIII.		\$75-125
44	Cal. .50 Spotting Rifle dim-bright tracer, T177. Orange over olive drab tip on GMCS bullet. "F A 51," nickel primer, red PA. HWS Vol. III, page 257, no figure. Ex-Woodin collection.		\$65-85
45	Twin Cities/Duke University experimental .30-06 frangible cartridges with short, pointed bullets. One with neck and lower bullet sectioned. Another whole with remnants of black paint on bullet tip, plus three additional experimental frangible bullets. "4 3 T W" with purple PA. .3006 by Punnett, pages 184-186. Ex-Woodin collection.		\$125-150

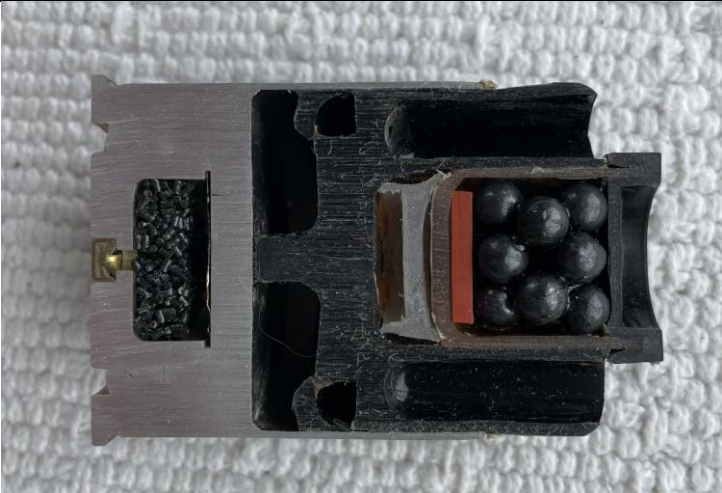

Lot	Description	Illustration	Est. Value
46	Polish 7.92x107 Maroszek Anti-Tank round. Ex-Dan Nolan collection.		\$75-100
47	Experimental 40mm/20mm experimental very high velocity cartridge. Dummy, with struck small copper percussion primer. 40mm brass case, headstamp; "40 MM MK2 TM 8 1944 GMS LOT 6," screw-in primer. Long case (12.25"/31cm) tapered down to 20mm. Bullet rotating band marked; "*H/M A 20-MM MK13-OD 5-1*." Projectile is purple/red with plain aluminum fuze. OAL 15.15"/38.4cm. Ex-Woodin collection.		\$500-750
48	National Conduit and Cable Company .30-06 unprimed empty (UPE) brass case, headstamp "N C 1 17." HWS Vol. I (revised) page 111, Fig. 146. Ex-Woodin collection.		\$55-65
49	A great Royal Labs Naval 577/450 packet dated 1889 in mint condition. Naval packets are seldom seen.		\$100-150
50	Cal. .375 Unidentified Silent Device; tool cartridge. HWS Vol. III, page 556, Fig. 837. For silent underwater use, as in attaching Limpet mines to hulls of enemy ships without being detected. Unique. Specimen used for book figure. Includes thumb drive with report copy. Ex-Woodin collection.		\$500-750

Lot	Description	Illustration	Est. Value
51	Cal. .45 PDW (personal defense weapon) cartridge with segmented (6 segments) lead bullet loaded into a steel case with a "F A 51" headstamp. Frankford Arsenal Lot 8. HWS Vol. III, page 32, Fig. 42A. Includes a group of loose segments. Ex-Woodin collection.		\$225-275
52	Packet of .455 Mk III Manstopping bullets. This packet has the date 00 which represents 1900. Another seldom seen packet.		\$100-150
53	Model 1862 .58 Gatling steel chamber with percussion nipple, unloaded. OAL 2.75 inches. The Gatling Gun by Wahl and Toppel, page 13. Ex-Woodin collection.		\$350-450
54	Model 1862 .58 Gatling steel chamber with percussion nipple, loaded, with 4-wing musket percussion cap removed for safety but included. OAL 2.75 inches. The Gatling Gun by Wahl and Toppel, page 13. Ex-Woodin collection.		\$450-550

Lot	Description	Illustration	Est. Value
55	Vetterli charger for the 10.4mm Vetterli cartridge. Complete with 4 rounds.		\$75-100
56	Cal. 50 Folded. Light gray anodized aluminum case, dull brass primer, headstamp "GTG 1983" (Grand Technology Group), Andrew Grandy, Frankford Arsenal engineer developed. GM bullet. No indication that it's a dummy, but no propellant heard when shaken? Ex-Woodin collection.		\$225-275
57	AAI 20 Gage Multiple Scimitar shotshell. Ribbed yellow plastic case with four-segment plastic sabot and seven scimitar blades. Headstamp; "REMINGTON 20 GA PETERS," with brass primer in copper-plated steel battery cup. In original brown cardboard box with "20 GAGE SCIMITAR CART." printed in black. 1973-1974. HWS Vol. III, page 486, Fig. 714. Ex-Woodin collection.		\$125-145
58	Western 12 ga salesman sample set with all the correct window shells.		\$250-350

Lot	Description	Illustration	Est. Value
59	Frankford Arsenal experimental Cal. .60 cartridge with a dark gray graphite finish on FAT 2 aluminum case, steel core GM bullet, percussion primer. Headstamp; "F A 48." One case hole indicating dummy, but primer looks good? HWS Vol. III page 283, 284. Ex-Woodin collection.		\$135-175
60	5.56 cartridge with rimless-grooveless aluminum case having a plain headstamp and M193 ball bullet. Loaded in 1970 by Frankford Arsenal for burn-through tests. No rupture groove in case. Very small stress crack in neck. Ex-Woodin collection.		\$75-100
62	Amron Corporation factory desk set display of three 20mm cartridges: M56A3 Projectile in M103 brass case, MK12 projectile in MK 5 steel case, and M56A3 projectile in M103B1 steel case. Wood base and two pens (dried out). Ex-Woodin collection.		\$275-350
63	Frankford Arsenal .30-06 unprimed empty (UPE) experimental steel case, headstamp "F A 19." With remnants of copper wash. HWS Vol. I Revised, page 120-121 (no figure). Ex-Woodin collection.		\$225-275

Lot	Description	Illustration	Est. Value
64	Salesman sample shells showing components.		\$175-275
65	Lake City Army Ammunition plant display of a 14.5mm M183 (dummy, no primer) cartridge on a wood base. Aluminum case is headstamped “L C 7 0” and the lead projectile slides out easily for inspection. Remington Arms Co. Inc. contractor. Project failed, so this is a rare display and headstamp. Ex-Woodin collection.		\$250-325
66	P90 developmental rimfire with non-magnetic, turned brass, “bttl” bullet. “SUPER X.” Case length 27mm. Ex-Woodin collection.		\$150-175
67	Gevelot Salesman sample set for shotshells. This complete set contains 15 rounds.		\$100-150

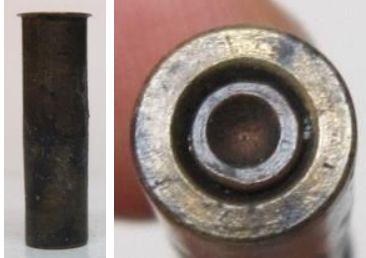

Lot	Description	Illustration	Est. Value
68	<p>Polte, Patronenfabrik, Magdeburg display board. “Belgische Infanterie-Patr. Kal. 7,65.” 9 different 7.65mm rifle cartridges, whole and sectioned. Beautiful condition with slight cardboard warping. Mixed headstamps from early 1930s. 29.6 x 38.2cm. Ex-Woodin collection.</p>		\$1250-1500
69	<p>A pair of General-Electric-made.30-06 ball cartridges, headstamped “GE 45.” One has a red PA (primer annulus color) and the other has no PA. The specimen with red PA is stained and has a cracked neck. HWS Vol. II, page 68, Fig. 58. Ex-Woodin collection.</p>		\$55-70
70	<p>Sectioned 40mm buckshot round. Ex-Dan Nolan collection.</p>		\$75-100

Lot	Description	Illustration	Est. Value
71	Cal. .50 High Velocity ball cartridge by the Bridgeport Brass Company under Frankford Arsenal contract. Headstamp "B 43 50 HV" with staked brass primer. HWS Vol. II, pages 239240, Fig. 222. Ex-Woodin collection.		\$55-70

82	.45 Maxim Pistol and .45 Enfield. The 45 Enfield headstamp is only cartridge to use Enfield in the headstamp (revolver cartridge). This round is actually a 455 and was a special contract to the Canadian Northwest Mounted Police (the predecessors to the RCMP).		\$200-350

Lot	Description	Illustration	Est. Value
83	30mm – 7-projectile composite (all metal) round, U. S. Navy manufacture. In competition with early revolver guns. Tested at Dahlgren 1955-56, or later. Used modified USN 4”/50 Caliber case. For ship-mounted AA gun having multiple barrels. Also tested in 5- and 3-projectile types (and 3- and 5-projectile 20mm types using modified 3”/50 caliber rimless-grooveless case). Ex-Woodin collection.		\$1,500-2,000
84	A pair of Olin Ordnance 25mm M919 APFSDS-T cartridges mounted on display bases. One specimen is sectioned to show flechette and sabot assembly and the other is whole. Ex-Woodin collection. Ex-Woodin collection.		\$275-375

Lot	Description	Illustration	Est. Value
85	D.C.Co. 44 CLOT. This headstamp is one of the iconic headstamp errors and shows the misspelling of COLT.		\$75-125
86	Frankford Arsenal XM76 Silent .30-06, steel case and head with black oxide finish, brass primer, fired with pusher rod extended. 1960. HWS Vol. III, pages 123-125, Fig. 152. Ex-Woodin collection.		\$450-550
87	.45 MARS Long. One cannellure. Ring crimped copper primer. Ex-Woodin collection.		\$325-375
88	.31 Front Loading with Milbank Primer. This specimen has a Milbank Primer and a bullet seated deeply into the case.		\$100-200
89	5.56mm FABRL (Frankford Arsenal/Ballistic Research Laboratory, later Frankford Arsenal Burst Rifle Launch) ball cartridge FA 263-C. "F A 7 3." Modified AR2 bullet and FIE (flexible internal element) HWS Vol. III, page 401, Fig. 573. Ex-Woodin collection.		\$75-125
90	Cal. .30 Super High Velocity dummy cartridge with T3 solid brass bullet. HWS Vol. I Revised, pages 274-275, Fig. 412. "CAL 50 FA 30." Primer pocket drilled out. Cartridge is set inside a 180-degree section of the gun breech it was fired in. Ex-Woodin collection.		\$500-750

Lot	Description	Illustration	Est. Value
91	.44 Teat Fire in very good condition		\$100-150
92	A pair of early AAI SPIW (Special Purpose Individual Weapon) experimental .22 Long Rifle rimfire flechette cartridges with brass puller sabots, one sectioned and one whole (live). "SUPER X." HWS Vol. III, page 312, Fig. 394 A and B. Ex-Woodin collection.		\$175-225
93	Frankford Arsenal .30-03 experimental unprimed empty aluminum case, headstamp "F A 10 06." HWS Vol. I (revised) page 102. No figure. Extremely rare. Ex-Woodin collection.		\$500-750
94	20/577 Alexander Henry		\$100-200
95	Mystery "7mm Nambu Dummy" with dimensions that don't exactly match known correct rounds. In 1988 Bill Woodin was given these cartridges, said to be 7mm Japanese Dummies, one complete and one empty case and bullet. The cases and flat primers are blackened brass. There are no knurls or cannelures on either the case or bullet. The bullet has a GM jacket over a lead core. The empty case has a single flash hole in the center of the base. One opinion is that they were made in Siam. See the IAA Forum thread on the subject, with box picture and dimensions, and Buttweiler Volume VII Number 1, Lot 268. Ex-Woodin collection.		\$350-500

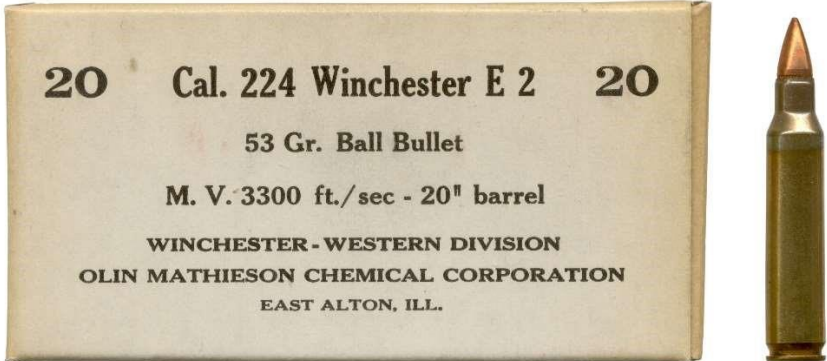

Lot	Description	Illustration	Est. Value
96	AAI 20mm Model 51908 “High Density Cartridge.” with a steel flechette projectile 4.1 inches long in a sectioned case. The round is displayed in a clear Lucite box held together with screws. Ex-Woodin collection.	 A clear Lucite box containing a 20mm high density cartridge. The cartridge has a long, thin, silver-colored flechette projectile protruding from a black casing. A yellow label at the bottom of the box reads "AAI MODEL 51908 20MM HIGH DENSITY CARTRIDGE".	\$325-375
97	25x137 APFSDS round in mint condition. Ex-Dan Nolan collection	 A black, cylindrical 25x137 APFSDS round with a white label featuring the number "4". It has a long, thin, black projectile protruding from the front.	\$50-75
98	Group of four Less Lethal Africa (LLA) dummies: 5.56x45mm, green rubber bullet, “□ LC 06;” 7.62x51 NATO, yellow bullet, “□ LC 12;” .45 ACP, prototype turned white nylon bullet, “FEDERAL 45 AUTO;” and .45 ACP, prototype cast rubber bullet, “FEDERAL 45 AUTO.” All four with brass cases and empty primer pockets. Ex-Woodin collection.	 Four dummy bullets are shown. From top to bottom: a 5.56x45mm green rubber bullet, a 7.62x51 NATO yellow bullet, a .45 ACP prototype turned white nylon bullet, and a .45 ACP prototype cast rubber bullet. All have brass cases and empty primer pockets.	\$225-275
99	Original Frankford Arsenal 20-round box for 5.56mm Caseless Vulnerability Test cartridges. Contains one cartridge in excellent condition, black with red primer and GM bullet. Ex-Woodin collection	 A cardboard box labeled "2000 - 5.56 MM CASELESS VULNERABILITY-TEST". A single 5.56mm Caseless Vulnerability Test cartridge is shown next to the box, featuring a black casing with a red primer and a GM bullet.	\$65-85
100	Factory window shell of a 12 ga CAWS. This is an example of the tungsten buckshot load. Ex-Dan Nolan collection.	 A factory window shell of a 12 ga CAWS, showing a tungsten buckshot load. The shell is clear with a brass casing and a black primer.	\$100-150

Lot	Description	Illustration	Est. Value
101	Frankford Arsenal experimental Ca. .60/.50 high pressure test round having a tin-plated case, "F A * 44" headstamp, staked brass primer, and purple PA. HWS Vol. III, page 239, Fig. 221. Ex-Woodin collection.		\$225-275
102	A group of three early T-65 7.62x47mm pre-NATO rounds. HWS Vol. III Page149-150, Fig. 176. First round, made from available stock on hand at Springfield Armory, "U.S.C.CO. 300 Sav;" Special loaded round for T-25 rifle, on-hand stock, Springfield Armory, "REM-UMC 300 Sav;" and Resized and reloaded at Springfield Armory for experimental rifle, "REM-UMC 300 SAV." Ex-Woodin collection.		\$90-125
103	A very scarce factory dummy of a .338 Norma Mag with link for an experimental medium machine gun by ATK. Case made by Jamison. Ex-Dan Nolan collection		\$75-125
104	Frankford Arsenal experimental .30-06 aluminum fired case, no headstamp. HWS Vol I (Revised) page 133, left column. No figure. Ex-Woodin collection.		\$275-375

Lot	Description	Illustration	Est. Value
105	Factory display of 20mm MK 149 Mod 1 Phalanx cartridge with cut-a-way penetrator and black sabot. Mounted on white marble. Winchester Group Olin. Ex-Woodin collection.		\$225-275
106	Snider packet Mark IV, dated 1888. Nice condition.		\$50-125

Lot	Description	Illustration	Est. Value
107	Factory display of 20mm MK 149 Mod 2 Phalanx cartridge with cut-a-way penetrator and orange sabot. Mounted on black marble. Olin Winchester Group Defense Products. Ex-Woodin collection.		\$225-275
108	.45 ACP time delay shot cartridge. “R-P 45 AUTO.” Nylon line loose but present. HWS Vol. III, page 33, Fig. 46. Ex-Woodin collection.		\$75-125

Designated Bidder Service

Vic Engel is the Designated Bidder for the auction, including the Woodin Lab items and others. This works as follows:

1. Vic will receive requests for his services directly at vicengel@gmail.com. He will then forward the appropriate form to those requesting his services for completion and return to him prior to the auction. The completed and signed form must be returned to Vic prior to the auction.
2. He will bid up to the maximum limit of the absentee bidder, receive the lot won from the auctioneer, confirm the sale (hammer) price, and sign a release.
3. He will take the lot(s) won home, pack it for shipping, determine the shipping costs, and notify the winning absentee bidder of the total amount due. He will ship lots won only when correct funds have been received.
4. Vic will provide these services ONLY to absentee U.S. citizens with continental U.S. addresses who do not attend the auction.
